SECURITY ALARMS

Hills Reliance - The safest choice in Security

Hills Industries designed the Reliance Security System using the most advanced technology available. Designed to meet the demands of safeguarding your home, business and family. The Hills Reliance offers extraordinary power coupled with simplicity of use. Ideal for all residential and commercial applications, and is expandable to meet the demands of growing families and businesses.

HOW HILLS RELIANCE WORKS

The Hills Reliance Security System uses a combination of door and window sensors, glassbreak sensors, and interior motion sensors to detect unauthorised entry. The codepad gives you full control over the system and allows viewing of all devices with ease. The system can be "Armed" so a loud siren will sound if an intrusion attempt is detected.

R128 - 16 Zone

R8 - 8 Zone

NX4 - 4 Zone

MOTION & SHOCK SENSORS

Indoor Motion Sensors

Optex RX-40QZ

The RX-40QZ gives extremely high false alarm protection with excellent tolerance to spot temperature changes from curtains, small animals, and pet. Using patented Quad Zone Logic, it is able to accurately discriminate between humans and other sources of infrared, providing reliable detection in a diverse range of applications.

12mx12m Sensor range

Optex RX-40PT

Same as above as well as being highly pet tolerant sensor.

12mx12m Sensor range

ITI Wireless PIR

When running wires for detection devices is too difficult, installing wireless PIR detection devices is the answer.

12mx12m Sensor range

Garage Sensor

A sensor designed to work best in a garage or workshop place.

12mx12m Sensor range

Windows & Doors

ShockTec™ Plus Digital Shock Detectors

ShockTec™ Plus is a digital shock detector with a door/window magnetic contact for internal use that provides reliable 24-hour perimeter protection. A break-in is detected as soon as the intruder attempts to force, smash, drill or even saw through the protected window, door, wall or roof.

1per window or door for perimeter alarms

ITI Wireless Shock Sensor

When running wires is not possible the ITI Wireless Shock Sensor is installed.

1per window or door for perimeter alarms

Control Panels & Remotes

Hills VoiceNav Lite

Speech enabled, up to 128 zone LED code pad that is compatible with all Hills Reliance control panels. Encased in an elegant and slim profile design with individually illuminated soft touch keys, the VoiceNav Lite is perfectly suited for all residential and commercial applications requiring up to 128 zones of control.

Hills TouchNav Code Pad

The Hills TouchNav keypad supports up to 128 zones, 99 users, 8 areas and 16 outputs making it ideal for your home, office, business or even multi tenant buildings.

4 Button Keyfob Transmitter

Control your alarm, garage door and other devices that have a receiver with this handy Keyfob.

Door/Entry Video Phone

KCV-D352 Colour Hands Free Video Door Phone

- Compact, slim & stylish design
- Digital Color 3.5" LCD Handsfree VDP
- Supports up to 2 screens, 2 door strikes, 1 camera
- On Screen Display (OSD) - Call, Monitor, Talk, Door open, and LCD settings are visible on screen
- Ultra low power consumption (0.7W on standby)
- Easy & simple installation with only 2 wires, no polarity
- Diagnostic tone and message in case of wrong connection, disconnection or camera problem
- Long distance connection up to 100m on UTP Cat 5
- Door strike can be connected to camera or monitor for increased security

Advanced Technology for Your Family

On your return home simply enter your 4 or 6 digit PIN code to turn off (Disarm) your security system. Other choices include the use of a stylish wireless key fob to Arm, Disarm, activate the system sirens (panic alarm) and if connected, control your garage door, all from the one convenient location.

Protect when Away & at Home

Just because you're at home doesn't mean your security needs to be Disarmed. The Hills Reliance can be Armed in the partial mode providing perimeter protection from door and window sensors, external beams, and selected movement sensors leaving you free to move around inside.
