DIGITAL CCTV SYSTEMS

Hikvision Digital CCTV Packages

Protect your property effectively with high quality surveillance products from a trusted brand. As one of the largest suppliers of surveillance equipment in the world, HikVision is a brand you can trust for a number of high quality products. Established in 2001, the company specialises in designing and manufacturing reliable solutions at an affordable price. The Installers are proud to supply their range of products on our site, ensuring a fast and simple installation process for residential and commercial buyers.

Why install a HikVision security system?

Whether it is the family home or your business, you'll want to do all you can to protect your premises from damage or theft. With CCTV in place, you will constantly have vision of what is going on in or around your property. This is especially helpful for businesses who regularly have visitors, or those looking to protect their property at night. For homes, this is a great way to ensure you have information necessary in the instance of a break in, with visual recordings assisting police or beneficial for insurance purposes.

As well as offering a reliable means of recording, the presence of a security system itself can be a deterrent for would be intruders or thieves. With this deterrent in place, many businesses can observe a decrease in theft, vandalism and trespassing. Best of all, it is an affordable addition that offers immense peace of mind.

5MP EXIR Turret Network Camera FEATURES

- Weather-resistant, day/night, mini-dome network camera
- 5MP high-resolution 1/3" progressive scan CMOS image sensor
- Capture 2048 x 1536 high-resolution at 25 fps, or Full HD 1080p or 720p HD at 30/25 fps
- Interchangeable 4mm lens
- 70° angle of view at 2048 x 1536 resolution
- Up to 98 ft of night vision
- Dual-streaming in H.265+ and/or MJPEG
- Digital Wide Dynamic Range
- Digital Noise Reduction
- Manage all settings via an online management interface or a free-download Windows management software
- Surface mount hardware included
- Optional wall-mount bracket and ceiling-mount pendant cap and mount supported

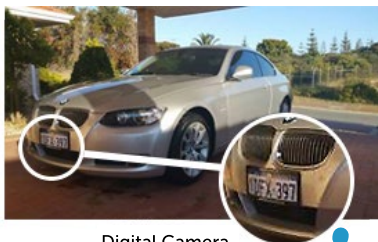

Analog VS Digital (IP) Cameras

Resolution. One of the biggest factors driving interest in IP video systems is the high resolution that they can offer. Analog cameras max out on resolution at about 580 TVL which equates to roughly 0.4 megapixels. High end IP cameras on the other hand, are currently available at resolutions above 5 mega pixels. This high resolution in turn gives users the ability to zoom in on video after the fact, and still have usable video.

Another benefit to IP video is that it is much more compatible with wireless. Wireless analog systems are available, but they either have to convert to IP anyway and broadcast over the 802.11 IP network (which adds cost for encoders), or they get crammed onto the over saturated regulated frequencies and often encounter interference.

Analog Camera

Digital Camera

Hikvision CCTV NVR HD NVR

A Digital Video Recorder (DVR) is a device that records video in a digital format to a disk drive. DVRs made specifically for CCTV Security Surveillance System applications record video signals from security cameras. The information, once captured, can be stored and able to be viewed multiple times.

Product Features

- 4 Plug & play independent PoE interfaces
- Supports up to 4 Channels
- 40Mbps throughput
- Up to 6 Megapixels resolution recording
- H.264, H.265+ AR47:AR49compression technologies
- HDMI/VGA output at up to 1080P resolution
- 1 SATA interface - Up to 6TB Storage
- Video Content Analytics (VCA)
- Mobile Application & PC client
- P2P - Quick remote access setup

Hikvision's HIK-7604NI-E1-4P is a 4-channel embedded plug and play network video recorder. A new generation recorder developed by Hikvision independently, this NVR supports the new H.265+ intelligent compression which aims to reduce bandwidth and storage requirements by up to 50%.

Complete with HDMI/VGA outputs at HD1080P and supporting up to 6MP resolution recording, the HIK-7604NI-E1-4P series NVRs offer complete HD surveillance experiences.

The Installers Digital CCTV Package

Digital Camera Pack 5MP

- 1 x 4ch Hikvision NVR
- Networkable 1tb hard drive with PoE
- 3 x 5MP 30m Night Vison HD Dome Cameras
- 1 x 5m HDMI cord to TV
- Training
- 12 month warranty
- Networkable
- Easy to use
